Sprint 3 Contribution Log

Xinlei Tian 40293328

1. Building Feature 1: Recruiter Dashboard and Posting Management

Designed and implemented the recruiter dashboard, giving recruiters a central interface to view and manage their job postings. Built the posting management functionality, allowing recruiters to create, edit and delete job postings, then tested the feature with sample postings.

Time Spent: 1.5 hours

2. Writing Meeting Minutes

Recorded the meeting minutes for the sprint, documenting the discussion, decisions made and action items assigned to each team member.

Time Spent: 0.5 hours

3. Writing Acceptance Tests for Feature 1

Wrote automated Playwright acceptance tests for the Feature 1 user stories (US-17, US-18, US-19 and US-10). The tests cover the dashboard listing and application counts, access control for job seekers, archiving and restoring postings, filtering applications by status and submission date, and updating an application's status.

Time Spent: 1 hour
